

I would like to thank you for the great opportunity I get to study at Alexandra High School. It is such a great pleasure to be at Alex as it is one of the best schools with high level of education. Talking about high level of education, to be honest, it goes with too much pressure academically. But I sometimes like it because it helps us to develop new skills and new attitude towards school work.

This year is my fourth year at Alex and I'm glad that I've gone so far. I've had a great experience at Alex because I have learnt to communicate with many people (since I'm shy); to improve my attitude academically because there are many awards that are given for just being involved in any kind of extra-mural activity (although I haven't been involved in many extra-mural activities). But I will make sure that I do something useful at school for the remaining time I've got at Alex to win an award as the school motto says, *Summa Diligentia Labore* meaning "I Do My Best".

I also believe that the school motto "I do my best", and the school mission statement "Together we strive to excel" underpins everything that happens in the classrooms and on the ~~sport~~ sport field.

Once again, thank you very much for such a great opportunity. May God Bless You!!!

Lots of Love from Sam.
